

Plexiglass Birdhouse Plans

<https://birdhouse.walkingdown.com>

December 1, 2019

Easy to build, plexiglass back for viewing, good ventilation, easy cleanout, uses standard $\frac{5}{8}$ " x $5\frac{1}{2}$ " boards. Tools needed: saw, straight edge, ruler, pencil, drill (spade bit, $\frac{5}{32}$ " bit), screw driver, 1" wood screws. The hole diameter can be adjusted to encourage specific species of bird to nest.
